

Mike Vomund

*Vice President, Americas Products, West
Chevron*

Mike will serve as Vice President, Americas Products West effective March 1, 2019, accountable for the profit and loss of Chevron's three refineries and associated fuels marketing activities in the Western United States, along with driving enterprise value capture across the "crude to customer" supply chain.

Prior to this, Mike served as General Manager, Americas Transportation & Operations. In this role he oversaw Chevron's fuels distribution and transportation operations across the Americas. This role included responsibility for fuel distribution from Canada to Colombia via terminal, trucking & rail. Mike joined Chevron in 1988 and over the years has held various Engineering, Marketing, Environmental & Safety, Operations, and Corporate staff positions of increasing responsibility in North America and Africa. In Africa, Mike served in Chevron's Downstream business with accountability for fuel sales profit and loss across South and Central Africa (South Africa, Namibia, Democratic Republic of Congo, Tanzania, Mozambique, Zambia, Zimbabwe, Swaziland, Botswana, Malawi and Lesotho).

Mike graduated from the University of California, Davis, with a bachelor's degree in Civil Engineering. He received his Juris Doctorate degree from Golden Gate University in San Francisco and is a member of the California State Bar Association. In his free time, Mike is an avid cyclist, who competes in mountain and road bike racing.
